

Make time for life.

Schedule a mammogram today.

You lead a busy life. But you owe it to yourself to make an appointment that could save your life. Schedule a mammogram today at The Connie Dwyer Breast Center at Saint Michael's Medical Center.

Breast cancer — the number-two killer of women in the United States — is highly curable if detected and treated early. Make time for a checkup.

A comprehensive, state-of-the-art facility offering multi-specialty consultations and innovative treatments, The Connie Dwyer Breast Center affords patients ready access to life-saving procedures and the convenience of receiving all key services at a single location. Expert staff provide the best in compassionate care, delivered with an emphasis on patient privacy and comfort.

To schedule an appointment for yourself — or for your mother, sister, daughter, aunt, or friend — or to learn more, call (973) 877-5189.

When she and her husband, Bob, decided to contribute to the establishment of a world-class breast center, Connie Dwyer, a breast cancer survivor, acted out of love for their daughters, Maureen (left) and Rebecca (right), for their granddaughter, Kathleen, and for families like theirs throughout the region. Connie and her family know firsthand the vital importance of early detection and expert treatment. And they encourage all women to consider scheduling a checkup today.
